the Statesman of Tuesday evening:

A bold and daring theft occurred in this city this morning at one o'clock. Two gentlemen drove up to the "Buckeye House," with a horse and buggy, and after alighting, were met at the door by a fellow who said he was the hostler, would take the horse around to the stable. One of the travellers offered a buffalo robe to the hostler for the purpose of covering the horse, but the pretended attache politely remarked that as there was plenty of blankets in the stable, the robe would not be needed. Off he started in the direction of the stable, and the strangers went into the office to warm themselves by the fire. In a few moments thereafter, one lo! to his utter astonishment, horse, buggy and man were not to be found. The thief started down one of our streets, in a southerly direction, but afterwards returned and crossed the Scioto bridge. Chase was immediately made, and continued for several long and weary miles, but without succeeding in catching the hostler thief.

LADIES AND TEMPERANCE.-The Ladies of New York have just held a State Temperance Convention at Albany. The attendance was very large, the addresses, speeches and resolutions pithy and pointed. Mrs. Thompson, of Albany, was chosen President. A Committee of Ladies from the Convention waited upon the Assembly, where, by the suspension of the rules, they were permitted to present in person the petition of 28,000 women of the Empire State, praying the Legislature to enact a law for the suppression of the liquor tarffic. Miss Chairman of the Committee, made a brief, forcible speech, explaining the reasons why the petitioners ask for the passage of the anti-liquor law.

'You're a brute!' and Mrs. Swallow threw herself back, and looked desperate.

Now this was a climax. Mr. Swallow vas called a brote at his own fireside, and by his own wife, which was the worst of all. He, Solomon Swallow, the celebrated founder of a system of matrimonialObservation, called a brute, and by no less a person than Mrs. Swallow. At first he was so asaghast; but when he came to himself, he saw that something must be done at once,

or the field was lost forever. 'You called me a brute, Mrs. Swallow!' 'I did Mr. Swallow."

'A brute!

How go you like that, Mrs. Swallow 'Vastly, Mr. Swallow, try it again.' And again he did try it, (for he had be-

company with its tea table companions. This was of course too much for Solomon; it snapped asunder the last remaining chord into silence ere the indignant dame seized the tea-pot and shivered it into atoms against the head of the devoted Mr. Swallow. Nor was this all, for as he was rolling heels

Kane, of the navy, is rapidly preparing for his daring enter-prise of undertaking to find an open Polar sea. The expedition will comprise but a-bout thirty men, but it is to be of the most somplete character in all its scientific and other details, and every man who belongs to it will be selected for some particular qualification and some special service in view for him. Notwithstanding the desperate character of the enterprise, we learn that volunteers for the service are constantly offering-only to be refused, for if we are not misiaformed, the little band of adventurers is now complete. The principal credit of this undertaking belongs to Henry Grinnell, of New York, and George Peabody, of London, who furnish the means, but it should not be forgotten that our worthy townsman, John P. Kennedy, the Sec retary of the Navy, has ensured the comtonished at such open manifestation of re-bellion to his royal will, that he only looked ploteness of the expedition by his enlighten d action in aiding Dr. Kane in its organization with the power of the government.
